
Materials

IMPAS has a great number of different materials with standardized dimensions in stock so that we can serve our customers quickly. These pipes are provided with the correct 3.1 (3.1.B) and 3.2 (3.1.C) certificates.

Our subcontractors are selected based on quality and delivery reliability, which is a must in our industry.

Materials that we process are:

- Carbon steel
- Fe 360 / 520
- A106 Gr. B / A333 Gr. 6
- S235 JRH / S355J2H

- Stainless steel
- 304 / 316
- Duplex

- 13 Cr. Mo 4.4
- CuNiFer
- Glass Fibre Reinforced (GRE / GRP)
